

Portkeys BM5 III WR

SKU: PK-BM5-III-WR

Description

Looking for a wireless budget-wise 5.5-inch on-camera monitor? The Portkeys BM5 III WR is ready for every creative adventure. The BM5 III WR is compact, and has a daylight-viewable touchscreen, four user function buttons, and a full suite of professional monitoring tools.

The housing of the BM5 III WR is entirely made of rugged aluminium and has toughened glass in front of the display. However, with a weight of only 376g/13.2oz (without battery), it won't add much poundage to a camera rig.

Specifications
