

## **CABLE MOVERS**

## MOUNTING INSTRUCTIONS

FΝ

The Alphatron Cable Movers are designed to fit the 125 mm wheels of the Alphatron Pedestal Dolly.

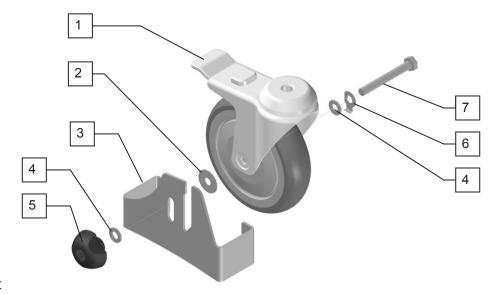

These instructions give you a mounting description and short information about the main functions of this accessory.

## **INSTRUCTIONS:**

The 125 mm low friction swivel wheels can optionally be equipped with cable guards according to the following mounting instructions.

- 1. 125 mm Swivel Wheel
- 2. Washer 25 mm
- 3. Cable Guard
- 4. Washer 16 mm (2x)
- 5. Knob M8
- 6. Locking Plate
- 7. Hexagon Bolt M8x65
- Remove the Bolt and Nut from the 125 mm wheel using the supplied tools
- Take the new hexagon Bolt, Locking Plat and small washer and put them through the Bracket and Wheel.

- Then Position the Cable Movers (3) around the wheel and put the larger washer 25mm (2), the Cable Mover, a small washer (4) and the Knob on the Hexagon Bolt (7)
- Be sure that the locking plate (6) is put right to prevent the Bolt from turning when the Cable Mover is in place.
- Do so also for the other wheels

The Cable Mover now is mounted and adjustable by the Knob, shifting it vertically, depending on the use of the Pedestal.
