

Productname: TRISTAR 6 Multi-Purpose Bi-color LED Light

SKU: ALP-TRISTAR-6

EAN: 8718591671869

Description

The TRISTAR 6, a super-bright Multi-Purpose Bi-color SMD LED light has a 3200K to 5600K color balance and is virtually unbreakable. The **Super-Bright SMD LED** technology provides an enormous bundle of light with great dimming control (100-10%).

You can use this very robust light on any camera and it offers an option to power it via a D-tap cable (included) to your V-mount or G- mount power supply. It can also easily substitute a 1x1 panel by using it on a light stand. Use two, or even three lights together for a perfect interview or studio set-up.

Together with the detachable metal barn door and diffusion filter you can create the perfect lighting conditions for any shoot.

Key features

- 240 long life Super-Bright SMD LEDs
- Robust housing for versatile camera purposes
- Smooth dimming control from Tungsten to Daylight
- Easily mounts on cameras, stands or handheld and has two mounting positions
- Powered by 4-Pin Mini XLR or Sony NP-F, Panasonic AG-VBR or Canon LP-E6 batteries (D-tap cable and brackets included)
- LCD display showing color temperature, brightness and battery capacity
