

Zunow Rectangle Rubber Hoods HU-85 / HU-100 / HU-127

These rugged, broadcast-style lens shades simply slide on and lock in place with a handy quick-lock mechanism. They are designed to fit a wide range of lenses (compatible with different lens diameters by using additional adapter rings sold separately).

Rubber hoods are designed to block the sun or other light sources to keep stray light from hitting your camera's lens, keeping lens flares out of your picture.

Also, the rubber material of the hood helps protect the front element of your camera, as it's shock absorbing and will not break easily on impact with another object.

All three hoods are under a 1 year limited warranty.
