

## 75mm Half Ball Adapter Kit

### for PTZ cameras, Mirrorless & Camcorders

ART: 2799.0003

SKU: PRL-BL75

EAN-13: 8718591675782

#### Description

The PRL Half Ball Adapter is the solution to mount a pan-tilt-zoom (PTZ) camera, mirrorless camera, small camcorder or flat-based tripod head, onto any 75mm tripod, hi-hat, slider or other grip equipment that requires a 75mm ball.

Thanks to the supplied 1/4"-20 & 3/8"-16 camera mounting screws and the long slots, basically any camera or quick-release plate can be mounted directly on this ball adapter.

The BL75 is made of aluminium, light weight and at the same time extremely durable. Three unique anti-rotation anchor screws, prevent the Half Ball Adapter from becoming loose and guarantees zero play between the equipment and adapter.

Transform a Manfrotto 502, 504, Nitrotech, Benro S2Pro, S4Pro, S8Pro or other popular flat-base tripod heads with 3/8" screw hole, into a 75mm bowl mounted tripod head in a snap.

For applications that do not require a fluid head it's a cost-effective solution for a fixed camera or PTZ setup. If the use of a video head is not required, the PRL BL75 Half Ball Adapter saves a significant amount of money.

#### Product highlights:

- Adapts flat based video heads, quick release systems & cameras
- Short tie-down center screw directly mounts any 3/8" thread PTZ camera
- Flexible mounting positions thanks to 1/4"-20 and 3/8"-16 screws on long slots
- Includes short Locking Handle ideal for ground level shooting
- Anti-Rotation anchor screws
- Durable Aluminium Construction

#### Compatibility:

Manfrotto 500 Fluid Video Head, Manfrotto 502 Fluid Video Head, Manfrotto Nitrotech 608 Fluid Video Head, Manfrotto Nitrotech 612 Fluid Video Head, Benro S2Pro, Benro S4Pro, Benro S8Pro.
