

Zunow Rectangle Rubber Hood HU-105 for WCZ-280

SKU: ZUN-HU-105
EAN/UCC:8718591672293

The HU-105 rubber hood is designed for the Zunow WCZ-280 4K Compact Wide Conversion Lens and it's also compatible with other lens diameters by using additional adapter rings sold separately.

This rugged, broadcast-style lens shade has a clamp diameter of 98 mm and simply slides on and locks in place with a handy quick-lock mechanism.

Rubber hoods are designed to block the sun or other light sources to keep stray light from hitting your camera's lens, keeping lens flares out of your picture.

Also, the rubber material of the hood helps protect the front element of your camera, as it's shock absorbing and will not break easily on impact with another object.
