

### Zunow WCZ-90 4K Compact Wide Conversion Lens

**SKU:** ZUN-WCZ-90

**EAN/UCC:** 8718591672309

The Zunow WCZ-90 wide converter is an x0.83 add-on conversion lens designed specifically for cameras and lenses with diameter filter threads of 62mm or 58mm.

This wide conversion lens has a full zoom-through and provides additional wide-angle capability. Whether you're shooting landscapes or working in tight areas, the WCZ-90 opens up the scene. This makes it the perfect lens for ENG-style shooting, when you need to get the best result in the shortest amount of time, under any kind of circumstances.

The WCZ-90 can be used in virtually any shooting environment while preserving the highest quality images with exceptional sharpness.

#### Compatibility

Thanks to the included 58mm adapter ring, this lens is appropriate for a number of professional 4K cameras from Canon, JVC, Panasonic and Sony.

The lens has already been successfully tested on:

**Sony:** HXR-NX80, PXW-Z90, PXW-Z150

**Canon:** XF405 and XF705 (with 58mm adapter ring)

**JVC:** GY-HM250 and GY-HM175

Attach the WCZ-90 to the 62mm or 58mm front thread on your lens and start shooting. You can even attach 82mm filters onto the front lens mount for added protection and image quality.

Zunow also offers the optional Zunow HU-85 rubber lens hood to prevent unwanted stray light from entering the lens.

#### Compact and lightweight design

Weighing only 390g (0.86 lbs.) this lens has been elegantly engineered in Japan and crafted without sacrifice in quality.
